Sky LED-Panel

Sky LED-Panel skapar en realistisk himmelsbild i taket och kombinerar belysning och dekoration i en enda produkt.

Den tryckta motivskivan i PMMA ger rummet en känsla av öppenhet och rymd, och passar särskilt väl i miljöer där ett naturligt, luftigt intryck efterfrågas – till exempel väntrum, kontorslandskap, vårdmiljöer och konferensrum.

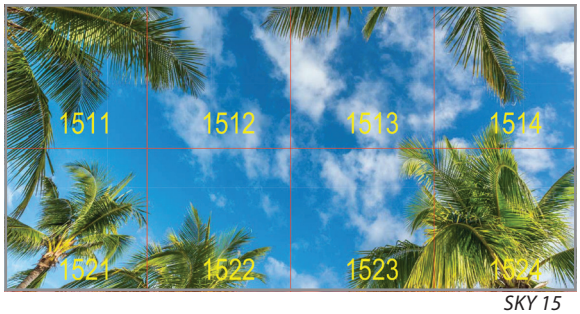

Panelen är europeiskt tillverkad och finns i ett stort urval av motiv, och det går även att specialbeställa med egna bilder för att skapa ett unikt motiv som passar just din miljö. Här ser du färdiga exempel.
